

An Order Issued on the Spot

One day in January Juche 103 (2014), the respected Comrade **Kim Jong Un** inspected a fish freezing facility newly built by a Korean People's Army unit.

After acquainting himself in detail with its construction work and operation, he said that the KPA should continue to stand in the vanguard of fishing.

Then he added that he came there that day to discuss the possibility of supplying fish to baby homes, orphanages, primary and middle schools for orphans and old people's homes across the country.

Officials accompanying him were deeply impressed.

He had made painstaking efforts to provide the children with all the best things.

And now he came all the way despite cold sea wind to supply orphans with sufficient amounts of fish.

That day he said that the slogan "Let us take upon ourselves both national defence and socialist construction" was very good, and that the army should take upon itself the work of supplying fish to baby homes, orphanages, primary and secondary schools for orphans and old people's homes across the country every day. Then he gave on the spot the order of the KPA Supreme Commander for the army to organize a fishery station, which would take charge of the work.

The order reflects his warm affection for children.
